

**8 or 16 Port KVM Console for Server Rack - Rackmount LCD - 19in - 1U - 8 or 16 Computer(s) - 48.3 cm (19") LCD - SXGA - 1280 x 1024 - 2 x PS/2 Port - 2 x USB - 1 x VGA - 17 - Daisy Chain - Keyboard - TouchPad - 1U High - PC**

Control your server or KVM switch from a centralized rack-mount KVM console. This 1U 8 or 16-port KVM console provides complete keyboard, monitor and mouse control for 16 computers. The rack-mount console installs into 1U of rack space, offering a space-efficient solution for complete console control.

Maximize your IT budget, minimize your hassle

This 8 or 16-port KVM switch provides all the essential controls you'll need to manage your server room at a low cost. The console features a built-in touchpad, keyboard for intuitive control and an LCD display that supports resolutions up to 1280x1024.

Maximize your screen space

This versatile rack-mount LCD console has a 19 in. screen. The increased screen space enables you to run multiple applications on the same screen, maximizing your productivity.

Clutter-free monitoring

The console slides out from 1U of rack space, enabling you to easily monitor and control 8 or 16 servers, and even more if connecting through a KVM switch. The rack-mount VGA console features a handle for easy sliding in and out of the server rack, keeping your area organized and clutter-free.

Hassle-free system integration

The rackmount LCD features a 16-port KVM module, allowing you to connect it directly to 8 or 16 servers. You can also connect to additional servers by connecting to KVM switches in a cascaded (daisy-chained) configuration. The KVM module offers the flexibility you need to easily integrate the console into your existing server infrastructure.
