CONECTOR IEC C14 MACHO AÉREO CON SEGURO

Computer AC power cable allows you to connect your PC or other device with a NEMA 5-15P plug to a PDU or UPS with a C13 power outlet.

Features

Computer AC Power Cable Connects Computers, Monitors and Other Equipment This computer AC power cable is designed for low-voltage data center, server room or home/office applications. This NEMA 5-15R to C14 cord converts a NEMA 5-15P plug into a C14 connector. You can use it to connect a computer, monitor, printer or other device with a NEMA 5-15P plug to a surge protector, UPS system or PDU with C13 power outlets. You can also connect your C13 printer or monitor to a switched source on your PC, allowing you to turn both devices on and off at the same time. The one-foot length helps reduce cable clutter.
